

SitaWare Aspire Hosting Service

Unlock hands-on and realistic experiences with Aspire Hosted Service for digital training

Access data hosted in Microsoft data centres and stored in your preferred country.

Ensure easy and updated online training and onboarding of personnel.

Add more users with a scalable setup that is tailored to your training needs.

Access online training courses hosted in the cloud on the Microsoft Azure platform.

Get access to materials 24/7 and choose the best time to complete your training.

Get a customised duration for the hosted service in 12-month increments.

Systematic ensures a seamless and secure experience by managing every step of your **system's setup and operation.**

What you get:

- A plug-and-play solution that eliminates system deployment, operation, and maintenance.
- Personalised user profiles.
- Server and Aspire application maintenance.
- VPN security guidance.
- Remote support from 08:00 to 16:00 CET.
- A solution built on the proven security principles of the Microsoft Azure cloud platform.

What Aspire Hosting Service requires:

All it requires to get **access to world-class training** is a compatible browser, permission to configure a VPN client and internet access, anywhere, anytime.

Do you want to **learn more?**

Find out how **SitaWare** Aspire Hosted Service can **help you focus on training** through hands-on and realistic experiences.
